

Hose Arresters / Containment Grips

To improve working safety standards we recommend you fit hose arresters in the following areas:

- Between pressure discharge fitting and hose
- At hose to hose connections.
- Between hose and jetting tool.

They prevent uncontrolled whip lashing and possible injury should the connection fail

Hose Dia	JLS PART No	Lattice Weave	Lattice Length	Overall length	Actual break tons (2240 lb / ton) 	Actual break tons (US) (2000 lb / ton) 
10-13 mm 3/8-1/2"	DE-1	Single	230 mm 9"	305mm 12"	0.75T	0.84T
13-19 mm 1/2-3/4	DE-2	Single	355 mm 14"	430 mm 17"	1.00T	1.12T
19-25 mm 3/4-1"	DE-3	Single	405 mm 16"	510 mm 20"	2.5T	2.8T
25-38 mm 1-11/2"	DE-4	Single	455 mm 18"	610 mm 24"	3.5T	3.92T
